

INDEX.

- A.
 Abercrombie on diseases of the stomach and bowels, 123, 485, 486, 487.
 Abortion, 517.
 Abscess, pneumo-hepatic, 213, 355.
 Absorption, experiments on, 198, 293.
 Acid, benzoic, in the grasses, 253.
 —, hydriodic, 521.
 —, phosphoric, in potash, 522.
 —, pyroligneous, in sphacelus, 258.
 —, sulphuric, injury from, 495, 515.
 Alkali in the Eupatorium canadense, 253.
 Almonds, bitter, effects of, 218.
 Aloetic acid, nature of, 252.
 Alum, insufflation of, 509.
 Alumine, sulphate of, in metallic colic, 225.
 Amaurosis, 231.
 Ammonia, sub-carbonate of, in venereal eruptions, 227.
 Amputation without ligatures, 245.
 Anaesthesia, without loss of motion, 477.
 Anatomy, morbid, mode of preserving preparations of, 255.
 Andrews on Lobelia inflata, 492.
 Aneurism, 249, 243, 545.
 —, Wardrop on, 166.
 Angina tonsillaris, 509.
 —, variolous, 501.
 Aorta, obliteration of, 218.
 Arendt's case of aneurism, 245.
 Arterial system, general induration of, 208.
 Ashwell on parturition, 145.
 Asthma, 492.
 Averill on removal of loose substances from knee-joint, 237.
 Ayre on dropsy, 444.
 B.
 Barbier's case of bone in the heart, 214.
 Barcome's case of colica pictorum, 489.
 Bardsley's case of dropsy, 497.
 Barnett on a remarkable biceps muscle, 197.
 Bartlett on medical institutions of Paris, 117.
 Beclard's General Anatomy, 264.
 Belladonna in phthisis pulmonalis, 228.
 —, poisoning by, 249.
 Bennesscheidt on iodine in the blood, 253.
 Berton on iodine in consumption, 498.
 Berzelius on sugar of liquorice, 252.
 Biceps muscle, remarkable, 197.
 Bichat, Henderson's Epitome of, 195.
 Bierkowski's Surgery, 537.
 Bigelow on reverse presentations, 285.
 Birth, five children at, 476.
 —, premature, 246, 247.
 Bischoff's case of coma, 489.
 Bladder, disease of, 217.
 —, rupture of, 250.
 Blandin's operation for laryngotomy, 243.
 Bleeding in the cold stage of fever, 222.
 Blisters, cotton as a dressing to, 269.
 Blood, Davy on, 498.
 Brain, diseases of, 54, 212.
 Breast, diseases of, 453.
 Breschet's case in which the uterus was wanting, 197.
 Brome in scrofula and goitre, 225.
 Bronchotomy, operation for, 255.
 Broughton on the physiological effects of oxygen gas, 479.
 Broussais's case of parencephalocoele, 476.
 Broussais de l'irritation et de la folie, 189.
 —'s case of gastro-entero-cephalitis, 219.
 — case of paralysis, 225.
 Brown on the molecules of bodies, 230.
 Burns, flour as an application to, 499.
 Busch, Mende and Ritger's Gemeinsame deutsche, &c. 195.
 C.
 Calculus, urinary, 335.
 Callaghan on small-pox, 392.
 Campano's case of neuralgia, 239.
 Cancer of the uterus, 506.
 Carditis, 549.
 Cassiber on Variolaria amara, 219.
 Cassan sur uterus double, 452.
 Cataract, 502, 503.
 Chaffard's case of satyriasis, 491.
 Chisholm, biographical memoir of, 394.
 Chlorine in hydrophobia, 225, 509.
 Cholera, Christie on, 463.
 Christie on Cholera, 463.
 Christison on dysentery, 215, 239.
 —'s case of injury from sulphuric acid, 515.
 —'s analysis of clothes, 516.
 Cinchona, new species of, 219.
 Circulation, 198, 206.
 Clarke's case of tumour of the eye, 231.
 Climate, on the supposed changes of, 235.
 Cold affusions, 497.
 Colica pictorum, 489.
 Coma, case of, 482.
 Commencements, 265, 268, 270, 271.
 Convulsus septium, 219.
 Cooper on diseases of the breast, 453.
 Copalva, mode of administering, 492.
 Corrosive sublimate, death from, 521.
 Cotton as a dressing to blisters, 269.
 Couper's case of laryngitis, 235.
 Cox on wounds of the heart, 507.
 Cribb's case of premature birth, 246.
 Cruveilhier on belladonna in consumption, 228.
 Cynanche laryngea, 557.
 — trachealis, 561.
 — tonsillaris, 492.
 D.
 Dakin on poison, 98.
 Dance on hypertrophy of the brain, 212.
 Daniell on dengue, 291.

- Daniell on fractures, 350.
 Davy on the blood, 498.
 ———'s case of pneumothorax, 495.
 Delivery, 259.
 Delvar's case of rupture of the bladder, 250.
 Dengue, 62, 260, 291.
 Dental Surgery, 196.
 Diamond, new mode of making, 251, 521.
 Dickinson's case of wound of the femoral artery, 69.
 Dickson on dengue, 62.
 Dieffenbach's case of cartilaginous degeneration of the stomach, 218.
 ——— on transfusion, 224, 226.
 Drake on deleterious effects of opium, 237.
 Dropsy, 444, 497, 535.
 Duodenum, perforation of, 214.
 Dunbar on the nervous system, 264.
 Dupuytren on reduction of hernia, 509.
 Dysentery, 215, 230.
 Dysphagia, 483.
- F.
- Earle's case of compound fracture of the olecranon, 504.
 ——— case of hernia, 507.
 Edwards and Varasseur's *Materia Medica*, 538.
 Eherman's case of strangulated hernia, 235.
 Elephantiasis, Lisfranc's treatment of, 511.
 Elliotson's case of derangement, 529.
 Emphysema, 488.
 Encyclopedic Dictionary, 443.
 Endosmose and exosmose, 73.
 Entropion, 297, 501.
 Epidemic at Paris, 256.
 Epilepsy, 96.
 Ergot in uterine discharges, 497.
 Erysipelas, 23, 92, 484.
 Eupatorium cannabinum, 255.
 Eye, tumours of, 231.
 ———, fungous of, 232.
 ———, infirmary for the diseases of, 254, 255.
 ———, inversion of, 297, 501.
- F.
- Fahnestock's case of delivery, 259.
 Femoral artery, wound of, 69, 235.
 Fisher on small-pox, 196.
 Fitch's Dental Surgery, 196.
 Flourens on reunion of divided nerves, 200.
 ——— on the division of the semicircular canal, 201.
 Fœtus, delivery of a, through the abdominal parietes, 512.
 Fractures, 242, 330, 507.
 Frictions of iodine, 210.
 Fuch's new compound of silica and potash, 251.
 Functions of the intestinal canal and liver in the fœtus, 489.
- G.
- Gall, disease of, 210.
 Galat's method of making diamonds, 251.
 Gascoin's mode of preserving specimens of morbid anatomy, 255.
 Gas, oxygen, physiological effects of, 479.
 Gastric juice, 205.
 Gastritis, 294.
 Gastro-entero-cephalitis, 219.
 Gland, thymus, absence of, 473.
 Glionna's case of suppuration of the spleen, 214.
 Glossitis, 533.
 Glottis, oedema of, 500, 507.
 Goldman's Addresses, 538.
 Goitre, bromine in, 225.
 Gondat's new species of cinchona, 219.
 Gonorrhœa, 500.
 Gorham, obituary of, 538.
 Graefe on stricture of the urethra, 234.
 ——— on hydrocele, 240.
 Gregory on small-pox, 225.
 Guepinet on amaurosis, 231.
 Guild's case of epilepsy, 96.
- H.
- Hall on Ergot, 497.
 ———'s case of preternatural membrane in the vagina, 260.
 Hare's analysis of Swaim's panacea, 539.
 ——— on morphia and narcotin, 535.
 Hasse on hydrocyanate of iron, 225.
 Hausbrand's case of insanity, 216.
 Hawkins's medical statistics, 452.
 Hays's medical statistics, 200.
 Hayward on prussic acid, 49.
 Head, injury of, 258.
 Heart, 214, 263, 507, 490, 491.
 Hemiplegia, 477.
 Hemorrhages, 186, 244, 510.
 Henderson's Epitome of Bichat, 195.
 Herbst on cold affusions in poisoning with hydrocyanic acid, 497.
 Hereau's Napoleon a St. Helene, 448.
 Hering's experiments on circulation, secretion and absorption, 198.
 Hernia, 235, 242, 501, 491, 509.
 Heustis's case of injury of the head, 258.
 ——— on hernia cerebri, 315.
 Hopton's case of glossitis, 533.
 ——— case of tracheotomy, 534.
 Horner's cases, 54, 294, 530, 538.
 Hydrocele, 240.
 Hydrocephalus, 539.
 Hydrocyanic acid, effects of cold affusion in poisoning with, 497.
 Hydrotachitis, 100.
 Hydrophobia, 228, 500.
 Hypertrophy of the brain, 212.
- I.
- Intermittent fever, 225, 498.
 Insanity, 216.
 Intestinal canal and liver in the fœtus, functions of, 489.
 Iron, hydrocyanate of, 225.
 Itch, 225, 227.
 Iodine, 240, 253, 492, 498, 521.
- J.
- Jackson's case of cynanche trachealis, 561.
 ——— case of entropion, 297.
 Jahn's case of emphysema, 488.
 Jemima on injection into the umbilical vein, 244.
 Johnson's case of pneumothorax, 495.
 Jolly on poisoning with belladonna, 249.
 Josse on the treatment of fractures, 242.

Journal des Progres, 472.

K.

King on opium, 262.

— obituary notice of, 539.

Knee joint, removal of loose substances from, 237.

Krimer's case of fatal error in the diagnosis of a tumour, 237.

Kuhn's Case of ossification of the vitreous humour, 502.

L.

Labour, difficult, 244.

Laennec on alum insufflations, 500.

Laryngitis, 235, 337.

Laryngotomy, 243, 531.

Larynx, needle in, 243.

Laxative of senna and prunes, 218.

Latour's Histoire des Hæmorrhages, 186.

Lee on the functions of the intestinal canal and liver in the fœtus, 484.

Leech bites, bleeding from, 224.

Lehman's meteorological observations, 570.

Leuret's case of paralysis, 218.

Lever on metallic ligatures, 17.

Liebig on aloetic acid, 252.

Life, duration of, in Russia, 254.

Ligatures, Lever on, 17.

Lime, chloride of, in itch, 225.

— paralysis, 532.

Liquorice, sugar of, 252.

Listrac's wound of femoral artery, 235.

— extirpation of a wen, 242.

— reduction of luxation of five weeks duration, 242.

— treatment of elephantiasis, 511.

Liston's case of lithotrite, 506.

Lithotrite, 239, 506.

Louis on Typhus Fever, 403.

Lugol on iodine in white swelling, 240.

Lungs, hernia of, 491.

Luxation of five weeks standing reduced, 242.

M.

Macaire-Princep on poisoning plants with their own products, 205.

Mania, suicidal and infanticidal, 514.

Mantel's report on midwifery, 244.

Marshall on application of flour to buras, 498.

Martinet on turpentine in neuralgia, 500.

Matter, ultimate particles of, 200, 201, 474.

Mauran's cancerous tumour of rectum, 511.

Medical Institutions of Paris, 117.

— Society of New York, 194.

— profession at St. Petersburg, 254.

— Society of Philadelphia, 271.

Memoires de l'Academie Royale de Medecine, 169.

Mende's anomalous distribution of the vascular system, 197.

Menstruation in a child, 206.

Mercury in Swain's panacea, 530.

Merrill on cotton as a dressing to blisters, 260.

Metallic colic, 225.

Meteorological observations, 571.

Midwifery, Mantel's report on, 244.

Midwifery, Nægele's report on, 245.

Molecules, ultimate, 200, 201, 474.

Mollina on aneurism of the carotid, 243.

Monstrosity, Tiedemann on, 205.

Morphium, Hare on, 535.

Montancix on sulphate of alumine in metallic colic, 225.

Mott's memoir of Dr. Post, 264.

Mugna's case of dysphagia, 484.

Muller's case of delivery, 512.

Mussey on urinary calculus, 333.

Myology, Tusson's, 192.

N.

Nægele on absorption by the uterus, 247.

—'s report on labours, 245.

Napoleon a St. Helene, 448.

Narcotin, Hare on, 535.

Necrosis, 518.

Nerve of the tensor tympani, 198.

—'s, reunion of divided, 200.

Nervous system, Dunbar on, 264.

Neuman on hydriodate of potash in cyanche parotidea, 224.

Neuralgia facialis, 230, 500.

Nicholson on dengue, 260.

O.

Olecranon, compound fracture of, 504.

Opium, 257, 262.

Orr's case in which two drachms of sulphuric acid were swallowed, 495.

Ostlander's case of difficult labour, 244.

Ouvrard's cases, 242, 246, 247, 248.

P.

Paralysis, 218, 228, 537.

Paracephalocoele, 476.

Paris, epidemic at, 250.

—, Medical Institutions of, 117.

—, report of the council of health of, 528.

Pecchiolli's improvement in lithotrite, 239.

Peirce's case of perforation of the stomach, 505.

Pelletan's new mode of using iodine, 492.

Pelvis, sinuses in, 505.

Pericardium, dropsy of, 484.

Pharmacy, Transactions of College of, 454.

Phrenology, 529.

Phthisis pulmonalis, 228, 495.

Placenta, expulsion of, three months after delivery, 511.

— hemorrhage from retention of, 244.

Pneumothorax, 493, 495.

Poison, cutaneous disease from, 98.

Poisoning plants by their own products, 205.

— by belladonna, 249.

— with nux vomica, 513.

Pollen of plants, 201.

Pommer on the gastric juice, 205.

Post, memoir of, 264.

Potash, hydriodate of, in cyanche parotidea, 224.

Pourche on brome in scrofula and goitre, 225.

Presentations, reverse, means of affording respiration in, 285.

— hip, 512, 513.

Prussic acid, Hayward on, 49.

Psoriasis inveterata, 227.

- Q.**
 Quarrier on feigned diseases of the heart, 529.
- R.**
 Rainy on recurrent laryngeal nerve, 198.
 Randal's case of gun-shot wound of the heart, 263.
 Rectum, cancerous tumour of, 511.
 Recurrent laryngeal nerve, 198.
 Regnault du Degree de Competence des Medecins, 189.
 Reid's case of anaesthesia, 477.
 Retina, anterior termination of, 474.
 Reuss on the circulation in the capillary system, 206.
 Rhind on Intestinal Worms, 176.
 Rhubarb plant, 492.
 Ridallo's mode of arresting hæmorrhage from leech-bites, 224.
 Righini on alkaline principle in the eupatorium cannabinum, 253.
 Robert's case of perforation of the duodenum, 214.
 Russia, duration of life in, 254.
 ———, *Maison des Enfants Trouvees*, 251.
- S.**
 Satyriasis, 491.
 Schmidt's treatment of tænia, 229.
 Schouw on change of climate, 255.
 Scrofula, use of brome in, 225.
 Scete cornutum, 497.
 Secretion, experiments on, 198.
 Semicircular canal, effects of the division of, 201.
 Semmola and Schœnberg on chlorine in hydrophobia, 228.
 Senna and prunes, 218.
 Senses, abolition of, 202.
 Sewall on turpentine in hernia, 301.
 Silica and potash, new compound of, 251.
 Silver, nitrate of, as a test of animal matter, 522.
 ———, found in the viscera, 479.
 Small-pox, Fisher on, 196.
 ———, Gregory on, 526.
 ———, Callaghan on, 302.
 Somervail on Erysipelas, 92.
 ——— on muriate of lime in paralysis, 532.
 Speranza on endermic treatment of intermittent fever, 496.
 Spleen, suppuration of, 214.
 Statistics, 253, 254, 260, 438, 528.
 Stengel's case of abolition of the senses, 202.
 Stokes on bleeding in the cold stage, 225.
 Stomach, diseases of, 215, 218, 505, 485, 486, 487.
 Stratford on inversion of the eyelids, 502.
 Superfetation, 477.
 Swain's panacea, mercury detected in, 539.
 Syme's case of aneurism, 210.
 ——— on sinuses in the pelvis, 505.
- Symons on pyroigneous acid in sphacelus, &c.** 258.
- T.**
 Tænia, new mode of treating, 229.
 Temple on hydrorachitis, 100.
 Tensor tympani, nerve of, 198.
 Thevison's case of diseased bladder, 217.
 Thornton's case of retention of placenta, 511.
 Typhus fever, 405.
 Tiedemann on monstrosity, 206.
 Toby's case of prolapsus uteri, 532.
 Tozno on endosmose and exosmose, 73.
 Tracheotomy, 507, 531.
 Transfusion, 221, 226.
